

## Item AHZSK5P -5 Gallon Bucket Universal Spill Kit

### AHZSK5P

**Hazmat 5 Gallon Bucket Chemical Spill Kit** for aggressive fluids, acids, water based fluids. Absorbs 5 gallons. 1/kit weight 8 lbs

This is a very popular spill kit due to our low prices and the very durable container it comes in. Our 5 gallon bucket spill kit was specifically designed for portability and for use inside or out.

A red bucket and bright yellow **Spill Kit** label make this kit easy to see and ready to use. The tear off lid can easily be removed when needed with the free lid removal tool attached to the top of the container.

The bucket is made of a tough, high density polyethylene that withstands temperatures up to 180 degrees. Lid includes a rubber gasket seal to keep moisture out. Because the bucket is sealed you know there is nothing missing in the kit when you have that unexpected spill. The metal handle makes it easy to carry. The handle also allows hanging of the *spill kit* if desired.

Very popular for use on truck beds. Some of our best customers for this product is pesticide companies, landscapers, trash haulers, concrete deliver companies, local delivery companies, truckers, Our 5 gallon bucket spill kits are one of our best deals. This kit is refillable. Contact us for refill items needed to make your used kits complete.
