

C-300c

Low Foaming Chlorinated Caustic CIP Cleaner

C-300c is a low foaming chlorinated caustic CIP cleaner used for the removal of hard to remove fats, oils and greases associated with food processing operations. C-300c is specifically formulated to remove soils quickly and effectively while being easily rinsed leaving no salt or mineral residue. Can be used in open or closed CIP systems.

FEATURES

- Chlorinated
- Highly Concentrated
- Low Foaming
- Versatile

BENEFITS

- Quick penetration of fats
- Economical end use costs
- Reduces foam buildup in CIP systems
- Can be used throughout where fats, oils and greases are present
